Volume 9. REDCLIFF, ALBERTA. THURSDAY, JULY 17, 1919 Number 29.

TO EXTEND WATER HOURS FOR GARDENS

As Soon as Tank is full. Council Will Issue Notice that Water May be Used from 7 to 9 for Six Days a Week.

The regular meeting of the Town Council was held in the council chamber last Monday evening. Mayor Bott occupied the chair and the following councillors were present: Messrs. Lavelle, Worts, Learmonth, Keats, Broughton and Oakland.

In th ereading of the minutes of the special meeting held to discuss the emergency hospital question it was shown that the following motion was passed unanimously. Moved by councillor Lavelle, seconded by councillor Worts, that all accounts for supplies for emergency hospital and wages for nurses and assistants, with the exception of any who received salaries from any other source during the time spent at the hospital, be assumed by the municipality and that various creditors be notified accordingly.

After the confirming of the minutes a letter wa read from J. Duggan asking for a price on lot 8, block 6, recently forfeited to the town for nonpayment of taxes. As the council had not yet authority from the department for this parcel the matter aws left in abbeyance.

The matter of securing a water meter for the tecl department at the rolling mill was brought up and supt. Kitchen was instructed to have one put in this plant as soon as possible.

Councillor Lavelle, chairman of the water committee requested that another hour be given to householders for rwatering their gardens. Councillor Worts favored this and said he did not see why the town could not allow two hours for garden watering this year as well as last, especially in view of the fact that the rolling mill was not running as steadily this year as last and was, therefore not using so much water. As the water indicator in the council chamber showed that there was very little water in the standpipe at the time of the council meeting it was explained that this was due to leaks and open valves. It was then moved by councillor Lavelle, accended by councillor Worts, that as soon as the tank is filled the time for watering gardens be extended to two hours a day and for six days a week. The time set was from 7 to 9 each evening. It was understood, however, that no change was to be made until the town had issued a circular and distributed same to householders.

D. Broadfoot waited on the council and requested that the hotel company had been requested to open up the hotel during Chautauqua week to accommodate the performers. He stated there was a possibility of opening the hotel again provided the council and gas company would extend him some concessions. He asked for a reduction in the water rate, and also asked Mr. Bott as manager of the gas company for a similar reduction. The Mayor said he did not care to discuss the company's affairs at that time but would give the matter due consideration and write Mr. Broadfoot. He considered the fuel and water expense of Redcliff hotel was smaller that any other town in nort America. He, together with councillors Broughton and Learmonth, thought that if the hotel had been running thousands of dollars behind each year, the matter of a few dollars saving in gas and water would not make it a paying proposition, and thus assure its being kept going.

Councillor Lavelle said he thought the closing of he hotel was a black eye to the town and that if a small concession meant that it would be opened up again he would be in favor of granting that concession.

Councillor Keats said other places were granting concessions to hotels and he did not see why Redcliff should not also.

It was finally moved by councillor Lavelle, seconded by councillor Oakland that the water rate to the hotel be reduced from 25c to 15c per 1000 gallons. The motion carried but councillors Learmonth, Broughton and the Mayor voted nay.

A letter was read from the Pressed Brick Co., calling attention to a bad crossing near hat plant, and Councillor Lavelle also drew attenton to another bad one on the corner of 5th Street and 5th Avenue. The street superintendent was instructed to have these crossings attended to.

Councillor Lavelle asked what progress had been made re securing water agreements with the different industries in town. Solicitor Beard reported that he was experiencing some difficulty in securing auntenic agreements and he did not think the different plants could be compelled to furnish same. Councillor Keats thought the plants in question should be given so ion gto furnish their agreements and suggested that if the rate were put they would soon come across. Councillor Lavelle was of the same opinion but while he did not want to raise the rate he sai dhe thought the council had a right to know what obligations the town was under towards the industries in this connection. No definite action was taken.

In discussing the hospital situation the Mayor said that there were still $2,660 outstanding accounts with $1,700 to take care of it. He recommended that the sanitary committee and the Board of Heath get together as soon as possible and arrange a proportional distribution of the balance outstanding.

Councillor Keats drew attention to a motion passed by council some time ago providing for the cleanup up of he Laurel hotel corner and the Wheeler block corner. So far, he said, this had not been satisfactorily done although some big improvement had be made on the Laurel property.

Councillor Ockland drew attention to the unsanitary and unsighly condition of some outhouses in town and thought something hould be done to have the owners improve them. The matter was referred to the Board of Halth.

Council then adjourned.

Industrial Congress Growing in Importance

That the forthcoming Alberta-Canadian Industrial Congress, August 11-16, is assuming a phase of international importance seems certain from the fact that already a large number of the chambers of commerce of the United States are planning on having delegations in attendance, as well as the city council and municipalities themselves of many of the more important Western cities.

From as far east as Erie, Penn., and as far south as Florida, assurances are given that representations will be made at the congress, while from Minneapolis and other northern United States cities a large delegations will come. From Minneapolis it is possible that a special train will be arranged as very many of the industrial leaders of Minnesota are planning to be present.

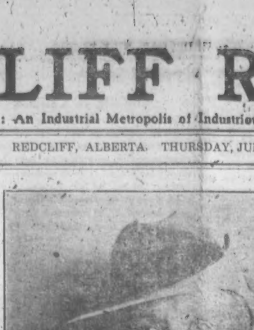
A special representation will be accompanied by delegates from Japan and this delegation will be accompanied by delegates from the Japanese Club of Seattle and a corresponding organization from San Francisco. It is possible that a Japanese speaker will be on the program and at least a brief address bearing on the relations as between Japan on the one hand and the United States and Canada on the other.

Wants Another War to Make Peace Secure

Henry Ford made many frank admissions in the course of his testimony in his $1,000,000 libel suit against the Chicago Daily Tribune. Mr. Ford admitted his ignorance of history and said that more than ever he considered it "bunk" growing out of tradition, nor had he any personal use for music or other forms of art. He reaffirmed his declaration that professional soldiers are murderers nor would he except Gen. Pershing or Gen. Grant from this category. He said that his present view is for the fullest preparedness unless there is a league of nations, and that if the war just completed in Europe does not result in such league he favors another great war without delay in order to clean up the situation so thoroughly that universal peace would be had.

Cost of Living Still Going Up

The cost of living is still going up. Labor department returns show the increase during June to have been slight, however. The averag cost of a list of 20 staple foods in some 60 cities at the middle of the month was $13.72 as compared with $13.53 at the middle of May, $12.79 in June, 1918, and $7.35 in June, 1914.



Sgt.-Major Carnie, President Returned Soldiers' League of Australia.

Sgt.-Major Carnie was one of the first Australians to enlist for the present war and as Sergeant-Major in the Anzac Field Artillery he has seen savage fighting during his four years of service. As Battery Sergt.-Major he went through the Egyptian Campaign and the illfated Gallipoli Expedition. Sergt.-Major Carnie has a story of gripping interest and tells it in an earnest, forceful way that leaves his hearers with a better understanding of what actually took place at the front.

He will be here both afternoon and evening of the first day.

New Motor Repair Shop for Redcliff

Mr. J. Kromhoff, formerly of Chicago, arrived in town last week to see his old friend D. W. Brown, and after looking around he decided to locate here and go into business. Mr. Kromhoff has had a wide experience in repairing motor car ignitions, lighting and starting systems, and it is his intention to open up a repair shop for that purpose. He makes a specialty of the Delco lighting system and besides carrying a full stock of repairs for this ystem, he will also give special attention to Bosch, Eiseman, K. W. and Dixie magneto repairing.

The office building in connection in connection with the Clay Products plant has been secured as a shop for the present. As there is a good opening for this class of work in this part of the province Mr. Kromhoff expects that his venture will not be long in developing into a thriving business.

This new business will be known as the "Motor Electric Equipment Company.

Demand Surrender Of Enemy Leaders

The Tageblatt says it learns that the allied and associated powers will not ask Holland to give up former Emperor William for trial but that they will request Germany to demand from Holland that he be delivered up.

The same procedure, the newspaper adds, will be taken with regard to German statesmen who fled to neutral countries. It is said 167 persons will be asked for, including leading generals, admirals, the commander of the raider Moewe, which sank numerous ships on the high seas, the commander of the submarine U-53, which visited Newport, R. I., in October, 1916, and on leaving sank a number of vessels off the American coast, and Dr. von Bethmann-Hollweg, former imperial chancellor; Dr. Alfred Zimmerman, former foreign minister, and Dr. Carl Helfferich, former secretary of the interior and vice-chancellor.

The allied and associated powers, according to the Vienna newspapers, will demand the extradition of Count Leopold von Berchtold and Count Czernin, both former Austrian foreign ministers. This is for the purpose of ascertaining to what extent the prolongation of war was due to their policies.

Gen. H. E. Allenby, commander of the British forces in Palestine, that took Jerusalem in 1917, is one of a large number of British officers awarded the United States Distinguished Service Medal, according to a list published in the official Gazette.

Crop Report of Dept. of Agriulture

Edmonton, July 15th.—A survey of crops on June 30th showed that the important wheat lands of Southern Alberta were in a precarious situation. This unfavorable condition in the south country has since been confirmed and intensified.

In the south the situation briefly is this: There was sufficient moisture from snow or spring rains to germinate the grain and the crops come up satisfactorily. There was not sufficient moisture below to constitute a reservoir for the stem supply of moisture to crops for subsequent growth and there has not been sufficient rain since.

Some have been showers over many parts of the south since that but in no cases have those showers been heavy enough to saturate down even to the little moisture that there was below and so induce any water movement into the crops. The rains that have occurred over the whole of this area have been showers that have wet the surface soil but only to a depth of about an inch. They have quickly evaporated without becoming effective to the furthering of crop growth, as it needs to go at least four or five inches down. The crops that had reached some height and were standing still at the end of the month have since gone back. Tight winds have persisted throughout practically all of Southern Alberta and the grain that is headed out is blenched at the top of the head, is empty at the bottom of the head and only has a few grains in the middle.

There is nothing to be said except that the grain crop in Southern Alberta is a failure.

Coast Unions are Against the O.B.U.

Twelve unions at Vancouver are reported to have taken a definite stand against the One Big Union, and partial returns indicate that seven organizations have signed the petition circulated by the Vancouver Theatrical Federation asking the American Federation Congress to cancel the charter of the action of Labor an dthe Dominion Trades and Labor Council, according to a local evening paper, which says that in labor ranks it is generally accepted that the charter of the council will be revoked and that a new central body, composed of unions adhering to the "form of craft unionism" will be authorized.

The Mail Drivers' Union is the latest one to take a stand against the One Big Union ad vote in favor of the cancellation of the Trades and Labor Council charter.

EVERYTHING READY FOR BIG CELEBRATION HERE NEXT SATURDAY

Committee Have Work Now Well in Hond and Everything Points to Successfull Day -- All are Requested to Take Part

Everything is now in good shape for the peace celebration to be held here next Saturday The committee appointed to take care of the different arrangements have all been working overtime and report good progress. There is great interest displayed on all sides both in connection with the big parade in the morning and with all other branches in connection with the whole day's program; so that a busy and successful day is now assured. In fact it is predicted that this will be the biggest day that Redcliff has ever had and as the extremely warm weather of the past week has considerably moderated this morning a record crowd is expected.

There is no doubt that the several committees have been doing their share to make the day a success. It is now up to the people of the town and surrounding country to do theirs. A special appeal is made to all to get busy and make their preparations for the parade in the morning. This is something in which every home and every place of business should be represented. Any who desire can take it upon themselves to get up something and they can depend on being a place in the procession. Citizens are also reminded to give the matter of decorating the house and business places some attention.

In another column in this issue a complete program for the day appears. Look it over and then make your arrangements so that the whole family may be able to take it all in.

After the parade in the morning there will be a gathering at the school where there will be addressed by the school children after which there will be a long list of athletic events for the children. Parents are requested to see that the little ones do not miss this part of the day's program prepared especially for them.

The list of sports in the afternoon are open to all and already prospective entries assure keen competition in every event.

Booth will be on the ground to provide ice cream, cake and soft drinks and during the noon and tea hour sandwiches will be served. This will simplify the matter of getting meals at home as few want to be bothered with such trifles on a busy day. In a word it now looks as though nothing has been forgotten. This final touch is up to you. Be sure to see that you do your part.

British to Build Giant Dirigable

Word has reached he air experts of the United States government that the British government has begun the construction of the largest dirigible that has yet been undertaken in the world, one that will carry an equipment of six airplanes for its own protection against heavier than air-craft.

The dirigible and two hangars to be built for it will cost $9,000,000, according to the information received. It will have a capacity of 10,000,000 cubic feet, will be 1,100 feet long, 150 feet in diameter, and capable of lifting 100 tons, which would be more than double the lifting capacity of the R-34 which has just made a round trip voyage across the Atlantic.

The cruising radius of the new dirigible which will be finished in from 18 to 20 months, is given as 10,000 miles and could, it is claimed, easily undertake the voyage from England to Australia.

A Zeppelin freight and passenger trans-Atlantic service to start about October 18, between New York and Hamburg, with Boston, Chicago, Berlin and Dusseldorf a sports of call, was announced in advertisements in German language newspapers and one United States trade paper published in New York.

Junior Chautauqua Here Next Tuesdey

Here Next Tuesday.

Miss Wallace, who is connected with the Chautauqua, arrived in town today and is now busy making arrangements here. In this line Miss Wallace wishes to get the assistance of the parents in securing the services of the children as the junior Chautauqua is given up for their special benefit. For it will be necessary to have some rehearsels for the part they are to play on Tuesday evening, the evening before the opening of the main chautauqua entertainments.

In the program for the children there will be a-proccsion after which there will be a gathering on the school grounds to which all are invited. At this gathering games of various kinds each having a good moral lesson, will be played, and Miss Wallace will address the children along lines of character building. Among the games played will be the "Bad Habit Man" which we are assured is most interesting and helpful. There will also be a ticket hunt in wich each child has a chance of getting a free tickete for the week's engagement, after which there will be a program of sports.

On the whole a general good time is assured for both young and old and it is hoped that children and parents will interest themselves in making it a success.

Von Tripitz Blames Hollweg for War

Admiral Von Tirpitz, chief of the German admiralty at the outbreak of war, in his war book professes complete innocence of causing hostilities. While Germany could not expect to overthrow Britain, in his opinion, the German navy was stren genough to enable Germany to recuperate after the war, but the revolution upset everything.

Von Tirpitz makes the noteworthy admission that Sir Edward Grey's proposal at the end of July, 1914, was calculated to prevent war. Von Tirpitz place sthe whole blame for the war upon Von Bethmann Hollweg, the German chancellor at that time, whom the Entente had given the means of peacefully unravelling the Serbian problem.

No Fixed Price Now for Wheat

The fixed price for wheat will cease to operate August 31, 1919, according to information from Ottawa received by the Winnipeg Grain Exchange and government officials. At a meeting of 1, 1917.

There is some doubt as to just how the council of the exchange it was decided to open the wheat market for trading on July 21, after having been closed for contract trading since Sept. the market may act on the opening, but if speculation becomes wild I was decided that trading could again be suspended. It is expected to be slow, however, until trading is gradually established.

PRINCE MAY KILL HIMSELF.

"The Allies can only have my dead body; I will myself decide on my life or death," the former German crown prince is quoted as having said last Friday, in discussing a possible demand for his extradition.

Valparaiso, Chile, July 15.—Eighty-seven persons are known to have been drowned, and the loss of life may have been much greater, in a hurricane which swept Valparaiso, Chile, last Saturday and Sunday.

THE CELEBRATION.

Different committees in charge of arrangements for the Peace Celebration here next Saturday have enterd wholeheartedly into the work allotted to them and, we are assured have everything now in good shape for the greaet event. This being the case it is now up to the citizens and the weather man to do their part to make this one of the greatest days Redcliff has ever had.

There are many ways the general public can help. First there is the procession in the morning. In this all can take part in some way. Then there is the matter of decorating your home and shop. Anything along this line will add to the success of the day and help give the town a real holiday, celebration appearance. Again there is your attendance at all the attractions at the school, the ball grounds and park in the evening. Take them all in and don't be afraid to use your tongue, your lungs and your hat when anything in the day's proceedings meets with your approval. Get enthusiastic. Get into the game. This is a Peace Celebration. There must be no cross firing, no faultfinding ,no rag chewing. But rather all must work with the one object in view and that is to make the day a success and as impressive as possible.

There may be mistakes made; there may be oversights but we should all be so busy doing our own little bit that these will not be noticed. Anyway what does it matter so long as our hearts are in the right place.

THE CHAUTAUQUA

Here is what the Merchant Trade Journal says about Chautauqua:

"Any business man is proud to be able to say: "We have a good Chautauqua in our town, because the Chautauqua is recognized as a symbol of culture, high ideals and broad thinking."

"The Journal has said again to its readers that business—real, true, fundamental business—consists of more than stores and stocks of goods, manufacturing plants, railway systems, and wholesale plants. After all, the very foundation of all our business is the men and women in it, and when these men and women have been aroused and inspired and lifted up and made to appreciate themselves more fully, and to recognize their own individual responsibility, that community has been bettered."

AN EXPERIMENT

According to information received, it appears that there was an understanding among the organized farmers and the government that the market for wheat should be opened up now simply by way of experiment, and the government will observe from the trend of the market whether a further set price on wheat would be advisable. If such is the case, the present movement for the re-opening of trading is only an experiment, and if it is found that things are not working out to the best interests of the country, the government will close the trading and set the price for the 1919 crops, the same as last year.

WHAT'S THE NAME.

With the thousands upon thousands of reminders people get in every paper ever printed about the absolute necessity for people writing to newspapers to sign their own names, it is hard to understand why it is that there are still those who persist in writing communications under some nom-de-plume. As has been explained in these columns dozens of times before, it is not necessary that the real name of the writer be published, but the proprietor of any paper must know the writer of any article as a guarantee of good faith.

We received an interesting communication from an annonimous writer this week but as the real name did not accompany it we are unable to publish it. The communication is signed "A Patriotic and Loyal Tommy." If the writer will call and give us his name we will be pleased to publish the article next week.

WATER FOR GARDENS.

It will be good news to garden owners in town to learn that at the last meeeting of council it was decided to allow an extra hour a day for the use of water on gardens. It is to be hoped, however, that as the time when gardens need water most is now past, this belated action on the part of the council is not like the pardon that came too late.

In the past a good garden crop has been the source of great help in pulling through a hard winter and as conditions are none too promising for the coming winter the lack of a sufficient supply of water during the early stages of spring gardens when water is most needed will mean a serious loss to many a home in town.

It must be remembered, however, that the use of the extra hour for water does not take effect until official notices have been sent out by the council.

PRESERVE THEM.

We were surprised to learn the other day that a number of our returning soldiers are not placing the value on their uniforms which we think they should and which these uniforms deserve. It is only natural that when a soldier returns he is glad to throw aside his uniform and all the recollections that are associated with it, in his desire to get back into civilian life again. But there is no doubt that time will come when there will be more importance attached to those suits that there is at the moment. When that time does come these uniforms will be priceless, and to none will they be more valuable than to the children and grandchildren of those who wore them.

By all means, boys ,we say preserve your uniforms. If not for your own sakes at least for the sakes of those who in future years will read with pride of the great part Canada played in The Great War.

Urge The Use of Government Railway

The War Purchasing Commission has sent out the following copy of a minute urging their clients to use government railways:—

"In connection with freight, express, and telegrams, the government is anxious that as far as possible all business should be transacted over government lines so that the public may receive as much benefit as possible from increased earnings. It will therefore, be appreciated if, in so far as you control these matters, telegrams be sent by the Great Northwestern Telegraphs and express and freight over the Canadian National Railways."

Borden Predicts Period Dispression

Sir Robert Borden has communicated to the press the following with respect to industrial and labor conditions:

"As announced in the governor-general's speech of provogation, it is the intention of the government to summon, within a few weeks, a representative conference for the purpose of anintimate and friendly discussion of relations between employers and employed, and for consideration of the report of the industrial relations commission. The provincial governments will be invited to attend, and the various organizations of employers and employed will be requested to appoint representatives. It is hoped that such a conference will be productive of better understanding and a more thorough co-operation.

"Meantime, it is most important that actual working conditions should be fully realised by the Canadian people. For five years the world has been wasting the productive energy of about fifty million men actually engaged in warlike activities. The remainder of the producing has been to a considerable extent occupied in producing munitions and instruments of destruction. Millions of men must now resume the normal activities of peace. The business of the world has been completely disorganized, and a long period will probably elapse before it can be completely re-established. After the present period will probably elapse before it can be completely re-established. After the present period of ination has passed, Canada, in common with oher countries, will probably face a period of depresion."

Imperial Soldiers Coming to Canada

Canada is preparing for a big immigration campaign to open n the autumn, declared Lieut-Col. Dead Smith, commissioner of emigration for British, on his arrival. "Three problems confront Canada," he said, "thte shipment of dependents from Britain, prelime that nearly all privileges given peration for emigration, and the settlement of the ex-imperial service men. We in Britain hope in the course of under the Soldiers' Settlement Act to Canadians will be extended to the Imperial ex-service men.

"Canada and other dominions are being aided by the Imperial government by free transportation to exservice men as ditheir families, but none will be given transportation who are unable to produce to the Imperial government a certificate from myself or my authorized agents showing the Canadian government approves of their emigration. Hon. J. A. Calder will see that the emigrants are of the best class an dthose only who can be absorbed readily into legitimate occupations."

CAN'T DEPEND ON LEAGUE FOR PROTECTION

Hon. W. F. Massey ,premier of New Zealand, passe dthrough Winnipeg on his way to Vancouver to catch a boat home.

Despite the formation of the league of nations, all nations should keep their armies and navies, and not rely solely upon the league for protection. This the opinion expressed by Premier Massey.

Plenty of Feed In Northern Alberta

The possibility of a severe shortage of feed for live stock in Albert is being discouraged by those who have first-hand information on the situation. It is denied that the drought has wrought a serious hardship in a number of the live stock owners, but reports from the northern section of the province indicate that there is sufficient feed there to meet the demand of the southern section which has not been as fortunate this year o naccount of the lack of moisture.

Hon. Duncan Mashall, minister of agriculture, although he does not deny that there is crying need for immediate acton on the part of the government and the railways to co-operate in the best interests of the live stock men and farmers, is not pessimistic over the outlook. There is to be a meeting in Winnipeg at an early date to discuss the situation when it will be decided upon arrangements will be reached whereby the stockmen can ship cattle free of charge to sections of the province where feed is available, and also to have hay shipped without transportation charges.

Reports from districts lying north of Edmonton indicate that there is an abundance of hay and straw available. This feed will be shipped south when the haying gangs are sent in and it is also likely that a large number of carloads of stock will be sent north for pasture and wintering, in parts where there is sufficient feed.

The Italian government, Premier Nitti announced in the chamber, has taken ample measures to preserve order in view of the threat of a general strike throughout the country. Troops, he said, have been distributed everywhere in cities and villages and in the supplies for more than 48 hours in country and they were provided with case they should be cut off from their bases.

Program of Sports for Saturday's Great Peace Celebration.

MORNING EVENTS

9.00—Monster procession to be formed on Broadway, west of Atlas Lumber yard. All taking part must be on time. Good prizes offered for best decorated car, best decorated bicycle, best float, any kind; best decorated delivery rig, best male character costume, best female character costume, best comic, male or female, best cowboy or cowgirl.

10.30—Gathering at School Grounds.
1 Saluting the Flag.
2 Patriotic Chorus—School children.
3 Address—Rev. E. C. Greenstreet.
4 Patriotic Chorus—School children.
5 Address—Dr. W. Shearer.
6 Refreshments for all children free.
7 Full list of Athletic Sports for children. Good prizes for these events.

11.00—Baseball game on ball grounds (7 innings).

12.00—Sandwiches, cake and Soft Drinks served by ladies at booths.

AFTERNOON SPORTS

First and second prizes offered for all the following events except those marked *.

1.30—Young ladies 75-yard dash.
1.40—100-yard dash for men (heats).
1.55—Married ladies 50-yard dash.
2.00—Sack race, 75 yards.

Your lady friend might like an ice cream. This would be a good time to get it for her, at one of the booths.

2.10—Fat man's race, 50 yards (over 200 lbs.
2.15—Backwards race for men, 50 yards.
2.20—100-yards dash for men (final).
2.35—Pillow fighting.
2.45—High jump.
2.55—Hop, step and jump.
3.05—220-yard dash for men.
3.15—Three-legged race.
3.25—Tug-of-war (heats). *

* * *

Lloyd Fairbairn, son of Mr. and Mrs. W. J. Fairbairn of this town, returned home from overseas this week. Lloyd enlisted with the 251st at Winnipeg and left Canada in Sept. 1917. He went to France in March 1918 and returned to England in February of this year. He is enjoying good health and was successful in missing any serious injury during the war.

* * *

There was a good attendance at the dance given on the G. W. V. A. platform in the park, Tuesday evening under the auspices of the ladies of the Catholic church. The fine moonlight, excellent music, good floor and congenial crowd left nothing to be desired, and as a result one of the most pleasant evenings of the season was enjoyed. The refreshment booth on the ground was well patronized and added greatly to the success of the evening.

THE LIBERTY BELLES

The Liberty Belles are three vivacious girl entertainers who will present two highly pleasing programs on the opening day of the Chautauqua. The Liberty Belles have been given the keynote place on the program because of sheer merit.

These girls are versatile as they are charming and delightful. They sing, impersonate and play with unusual skill. Individually and collectively, there is the same winsome appeal to their work. An attractive feature of their program is their song in costumes.

If you want to borrow money on farm lands, leave your name and address at the Broadway Dept. Store.

* * *

A lacrosse match is to be played in Medicine Hat next Saturday with a line up from Lethbridge.

* * *

Gold Discoveeed in Northern Manitoba

Measuring 20 feet wide and 5,000 feet in length, comprising a solid dyke of quartz containing gold has been found at Copper Lake, north of The Pas, Man., by J. Gordon, ex-chief engineer of the Hudson Bay Railway. Mr. Gordon states that the values are uniform throughout and average between $9 and $14 to the ton.

Incoming prospectors confirm the report of the discovery and a mild rush has already begun to the scene of the strike. Copper Lake is east of the Sherritt copper mines and it is also the scene of the finding of fish fossils a short time ago.

Kaiser's Sons Offer Themselves for Fa her

Prince Eitel Frederick of Prussia, second son of thee former kaiser, has sent the following telegram to King George:

"To His Majesty the King of Great Britain and Ireland:

"In fulfilment of the natural duty of son and officer, I, with my four younger brothers, place myself at your majesty's disposal in place of my imperial father, in the event of his exhaudition, in order by our sacrifices to spare him such degradation.

"In the name of Princes Adelbert, August, William, Oscar and Joachim. (Signed) "EITEL FREDERICK."

Great Britain monster dergible R-34 has made a successful return trip across the Atlantic. The return voyage from Long Island, U. S., was completed in approximately 75 hours and was made without mishap.

Don't Stop at Our Front Window

—but, walk right into our shoe store—and examine the values offered.

—don't judge a shoe by its appearance and the uppers at a distance

Hold our shoes in your hand and see and feel the value—turn them over and look at the sole.

A good sole is important to the life of any shoe.

For that reason many of our shoes are soled with NEOLIN SOLES. They result in long wear, and extra comfort.

A complete range of styles and sizes in men's, women's and children's shoes.

PEARSON
The Shoe Man

ARE NOW RELEASING CONSCIENTIOUS OBJECTORS.

The policy of releasing conscientious objectors throughout Canada, has been carried out here in connection with thoe incarcerated in the provincial jail. Of the 12 "conchies" who were held in this jail, 11 have been released, the other is serving a term on another charge.

A national tribute of honor was paid to the memory of Captain Charles Fyratt, executed by the Germans in 1916 for attempting to sink a U-boat, by a national memorial service at St. Paul's cathedral.
